## W.F. Whelan Co. Expands Big

Canton's largest industrial vacancy, a 1.1-million-square-foot building that once housed a Kmart distribution center, will be the new home for longtime Romulus-based W.F. Whelan Co., a global third-party logistics firm that stores and distributes goods exported and imported by air and sea.

W.F. Whelan, also licensed as a foreign trade zone where companies can avoid duties and taxes until products are shipped, plans a gradual move that Dennis Webb, chief business development officer, said should be completed by February. "We're very excited," he said. "This is an evolution for us."

Amid plans to invest as much as \$4 million in the Canton building, W.F. Whelan confirmed it will consolidate operations from two separate Romulus facilities into the former Kmart warehouse southwest of Joy and Haggerty. "We're kind of like a big family," Webb said. "This gets us all back under one roof."

W.F. Whelan has 50 full-time employees and a similar number of contract employees. Moreover, Webb predicted the still-growing, 36-year-old company will likely add five to 15 workers a year after it settles into its new international warehouse, distribution center and headquarters. "We are very excited they are coming to Canton," township Economic Development Manager Debra Bilbrey-Honsowetz said.

Canton Municipal Services Director, Tim Faas said the former Kmart distribution center has been vacant for several years, though it was most recently used by Absopure Water Co. "This is the largest industrial vacancy in Canton and one of the largest in western Wayne County," Faas said, calling W.F. Whelan's move "awesome" for a township that has strived to lure companies to combat an economic downturn.

W.F. Whelan Co. began in 1974 in the Detroit Metro Airport international terminal as a small customs brokerage company for the automotive industry and its parts suppliers. The company later moved to a larger facility in Romulus, adjacent to the airport. Webb said the firm now finds itself in need of an even larger facility where it can continue to grow. W.F. Whelan supplies some 36 automotive assembly plants each day, and Webb said the company also handles hundreds of products ranging from electronics to wine to feathers for pillows. "We have even shipped human remains for people who moved here from other countries and wanted to go back to the old country to be buried," Webb said.

As a U.S. Customs Broker, the company also clears freight for businesses. Webb's brother-in-law, Bill Whelan, company president, founded the business in 1974, and Webb's late wife, MaryAnne, served as vice president and helped the company grow.

Webb cited the Canton location as ideal because it allows the company to expand while remaining close to Detroit Metro Airport, Willow Run Airport and the I-275 corridor. Webb conceded that many companies have struggled amid an economic recession. Yet, he said W.F. Whelan does business amounting to more than \$50 million a year. "We've really weathered the storm," he said. "We love the Canton area, and we're really looking forward to being part of the community."
